

**WANG KOK**

SEWERAGE CONSTRUCTION PTE LTD  
源國衛生水喉工程私人有限公司

9<sup>th</sup> January 2006

To Whom It May Concern:

**Wang Kok Sewerage Construction Pte Ltd** had obtained the services of **WaterTech Pte Ltd** to design and build a Waste Water Treatment Plant for ST Aerospace Ltd, located at 500 West Camp Road, Seletar Road. We were pleased that despite the tight schedule, the Waste Water Treatment Plant was completed successfully within schedule.

WaterTech's high level of professionalism and knowledge of water chemistry is impressive, and had assisted our whole construction team in our cost saving effort by using the most advance and low cost operating processes. We had operated the plant for 10 months, and are confident of its excellence performance and reliability.

At **Wang Kok Sewerage Construction Pte Ltd** we are proud of our stringent quality control and grading system for our specialist contractors, however upon working with WaterTech they had achieved all "A" in their "Company's Engineering Knowledge", "Management of Project", "Workers' Technical Knowledge and Skill", "Safety Procedures" and "After Sales Support".

Our experience with WaterTech was comfortable and pleasant. We look forward to more opportunity to work with them again. We, too, strongly recommend WaterTech Pte Ltd without reservation for any project they are committed to undertake in the near future.

Yours truly,

**Andrew Quek**  
**Director**
